MASSIMO E SONIA
CIRULLI

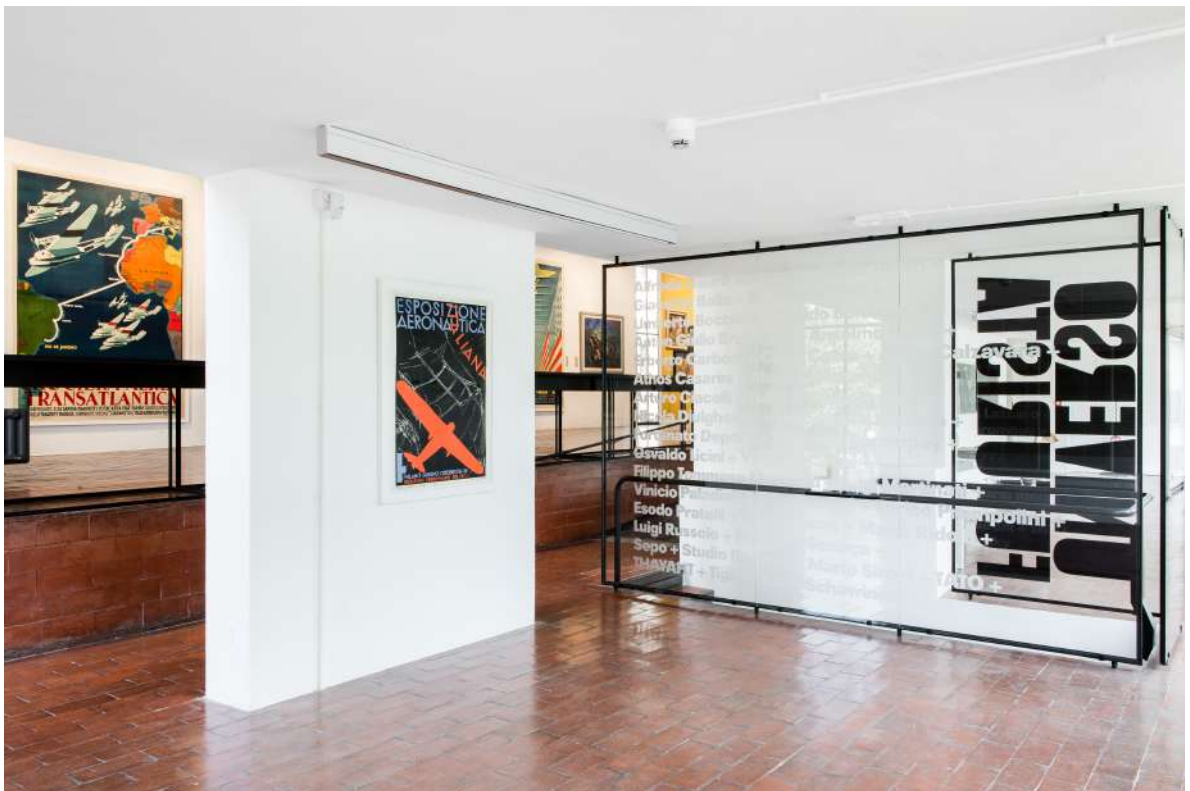

Exclusive Offer

Fondazione Massimo e Sonia Cirulli has its venue in a landmark building located in San Lazzaro di Savena, a few kilometers from Bologna, with a strong symbolic connotation in the context of twentieth-century Italian architecture and design, as it was envisioned by Achille and Pier Giacomo Castiglioni in 1960 for Dino Gavina.

Until 2012, the space hosted one of the most prestigious companies in the field of industrial design; both a showroom and a creative atelier, this space has become a crossroads of encounters that have marked the history of twentieth century design culture.

Some of the biggest names in twentieth century culture have been here: designers and artists such as Carlo and Tobia Scarpa, Marcel Breuer, Man Ray and Marcel Duchamp transformed this space in a creative lab that the Fondazione Massimo and Sonia Cirulli, today, reopens to the public.
